

INFOTEL CARE – App Requirement & Quotation Request (RFP)

Objective

Develop a multi-brand electronics service marketplace platform consisting of Customer App (Android/iOS), Technician App (Android), and Admin Panel (Web).

Customer App

Login: Mobile OTP, Google, Email.

Home Categories: Mobile Phones, Laptop, Desktop, Television, Air Conditioner, Refrigerator, Washing Machine, Microwave, Water Purifier, CCTV, Printer, Other Electronics.

Booking Flow:

1. Product Category
2. Brand Selection
3. Problem Selection
4. Upload Photos/Videos
5. Address & GPS
6. Time Slot Selection
7. Booking Confirmation

Features: Booking Tracking, Live Technician Location, Payments (UPI/Card/Net Banking), Digital Invoice, Ratings & Reviews.

Technician App

Registration with Aadhaar, PAN, Photo, Bank Details (Admin Approval Required).

Dashboard: New Jobs, Accepted, Ongoing, Completed.

Job Management: Location, Call Customer, Navigation.

Estimate Module: Labour, Parts, Service Charges.

Completion: Upload Photos, Collect Payment, Generate Invoice, Close Job.

Admin Panel

Dashboard, User Management, Technician Approval, Booking Management, Commission Management, Reports (Booking, Revenue, Technician, GST).

AMC Module

Silver, Gold, Platinum annual maintenance plans with renewal reminders.

Spare Parts Module

Parts ordering for mobile, laptop, AC, TV and other electronics. Supplier and pricing management.

Corporate Module

Asset Management, Bulk Service Requests, AMC Contracts, Monthly Reports.

Future Phase 2

AI Fault Diagnosis, Video Consultation, Warranty Storage, Refurbished Marketplace, Spare Parts E-commerce Store.

Technology Preference

Frontend: Flutter | Backend: Node.js | Database: PostgreSQL | Cloud: AWS | Integrations: Google Maps, SMS Gateway, Payment Gateway, Push Notifications

Quotation Required

Please provide:

1. UI/UX Cost
2. Mobile App Development Cost
3. Admin Panel Cost
4. Hosting Cost
5. Maintenance Cost
6. Development Timeline
7. Source Code Handover
8. 12 Months Support Details

Vendor Response Section

Kindly submit your commercial and technical proposal covering all requested items, architecture approach, deployment model, support structure, project timeline, assumptions, exclusions, and payment milestones.
